Luxe Light & Airy Tools XMP.zip

3 CLICK TO DOWNLOAD

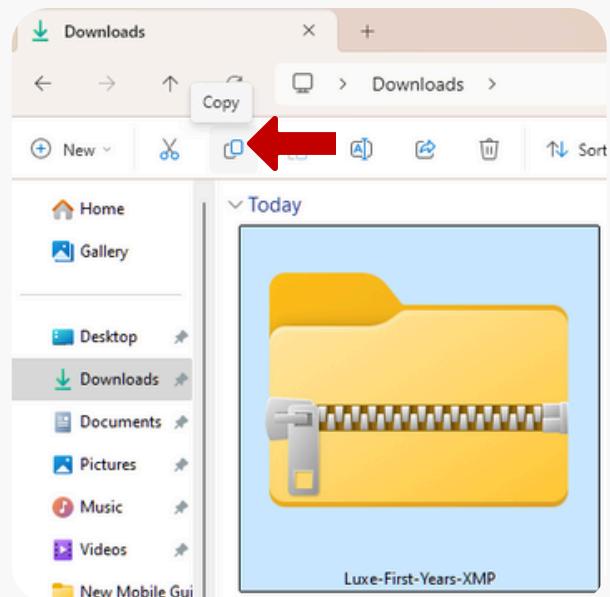

Click each .zip link to download your presets!

If you purchased a larger bundle, you may have additional brand and toolkit folders! Wait a moment before each click.

4 BACK UP FILES

Once you have downloaded all available XMP presets & toolkits in .zip format, you should find them in your “Downloads”.

We recommend making a copy of your files to a cloud storage drive or external hard drive!

Luxe-Light-Airy-XMP

BRUSHES

If you downloaded brushes, keep brushes separate from your XMP presets & toolkits.

Local Adjustment Brushes are for use in Lightroom Classic ONLY and must be manually installed.

LEARN MORE 

* DON'T UNZIP

You do NOT need to open or unzip your downloads.

Simply launch your software & import whole.

If you DO unzip, you can select all the individual XMP files at import for LR & LRC, but ACR requires WHOLE ZIP import ONLY!

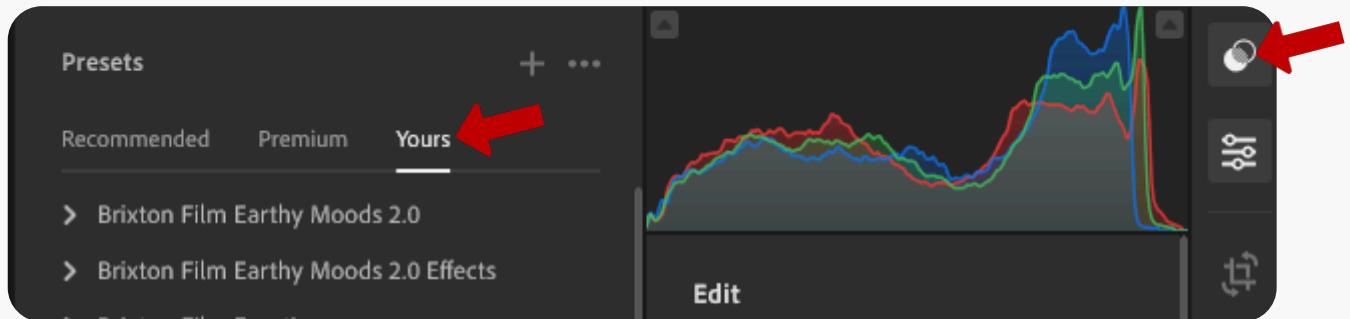

2

LIGHTROOM

IMPORT

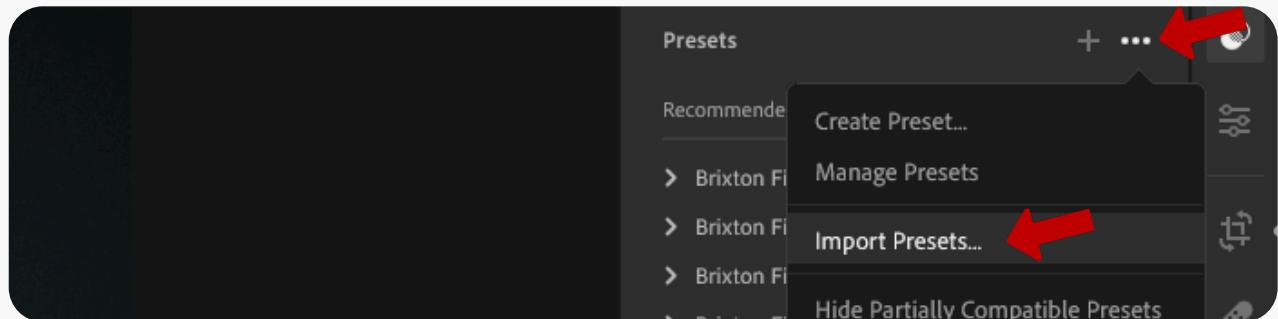

1 LAUNCH LIGHTROOM

Open Lightroom (CC), and navigate to Presets (two overlapping circles icon) & locate the “Yours” tab.

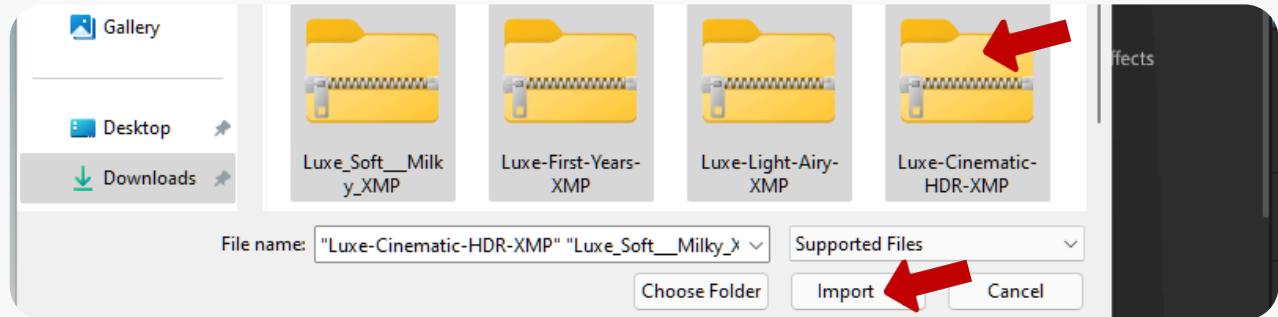

2 OPEN MENU TO IMPORT PRESETS

Select “...” to open the presets menu & select “Import Presets...”

3 SELECT FILES FOR IMPORT

Select downloaded XMP .zip files and click “Import”

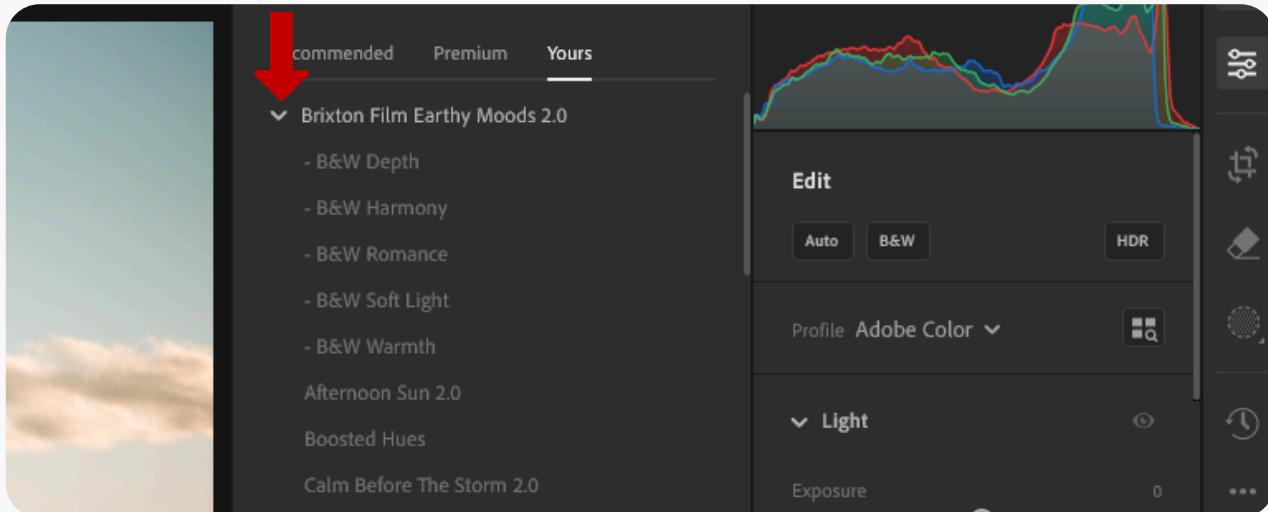

NOTE: ALSO HAVE LIGHTROOM MOBILE? ANY PRESETS IMPORTED IN LR CC WILL ALSO SHOW UP IN THE APP!!

USE

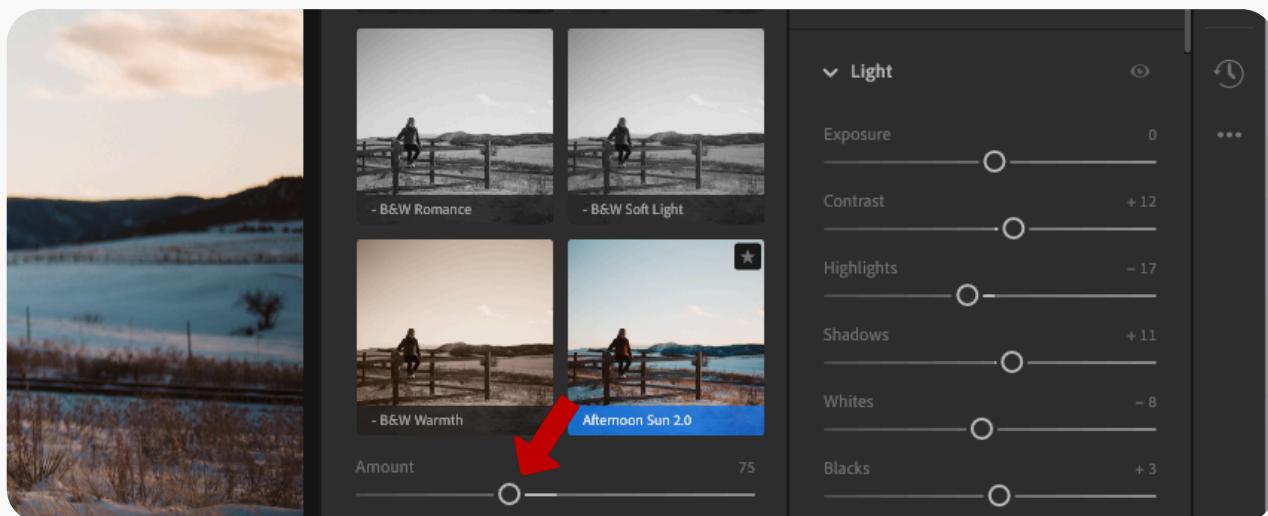

DON'T SEE OPTIONS? EXPAND FOLDER

Select the little > icon next to the collection folder to view newly installed presets.

USE YOUR NEW PRESETS!

Hover to preview, click to apply! AI & Effects presets may take a moment to detect localized zones the first time they are applied to a specific zone. Adjust preset strength with amount slider.

3

LIGHTROOM CLASSIC

IMPORT

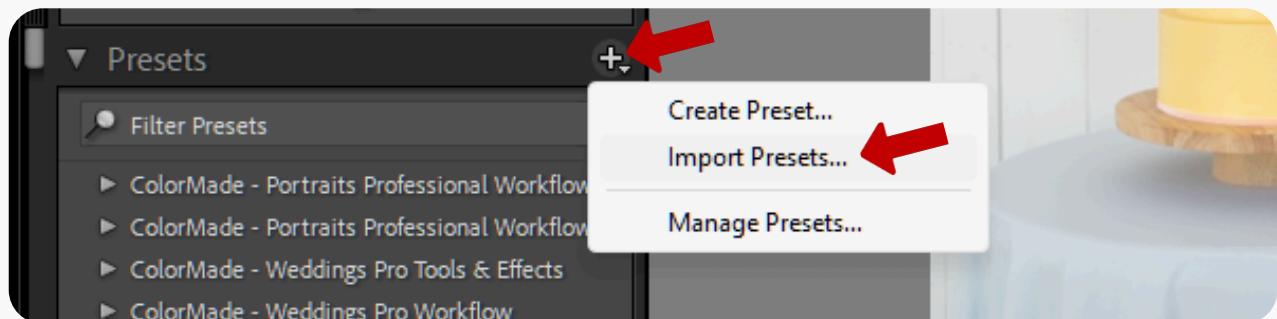

LAUNCH LIGHTROOM CLASSIC

Open Lightroom Classic, navigate to the develop tab, and locate your presets panel.

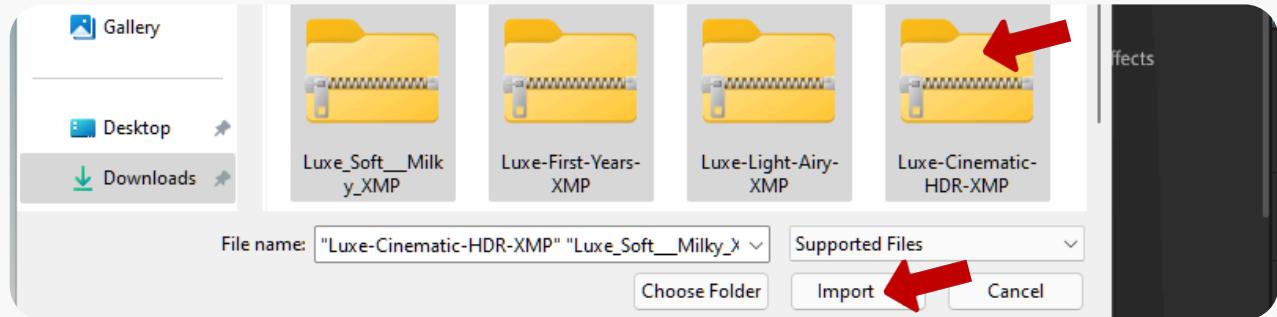

OPEN MENU TO IMPORT PRESETS

Select “+” to open the presets menu & select “Import Presets...”

SELECT FILES FOR IMPORT

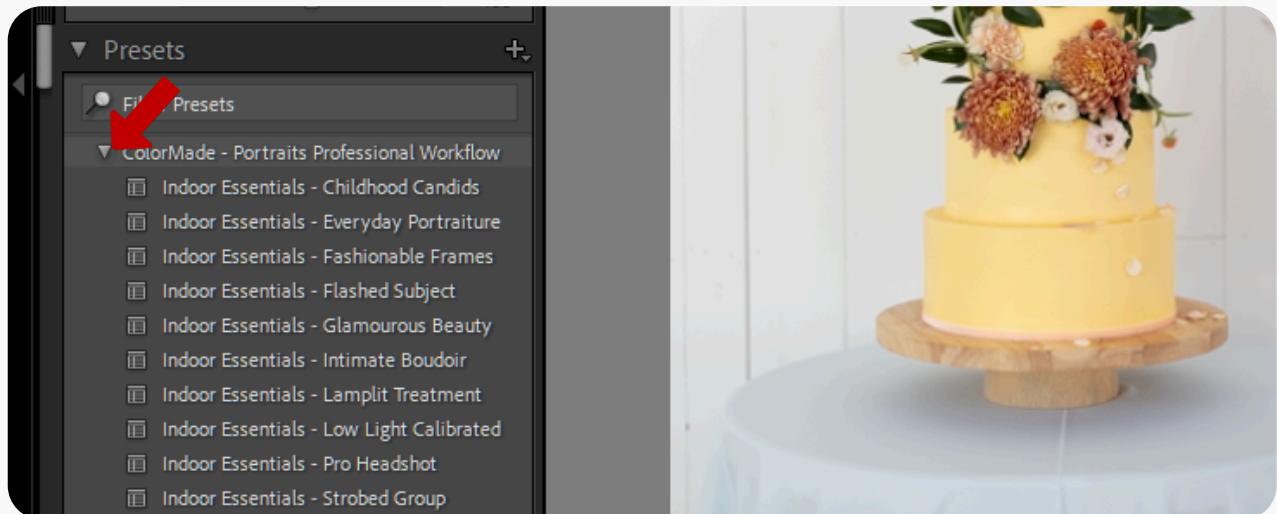

Select downloaded XMP .zip files and click “Import”

USE

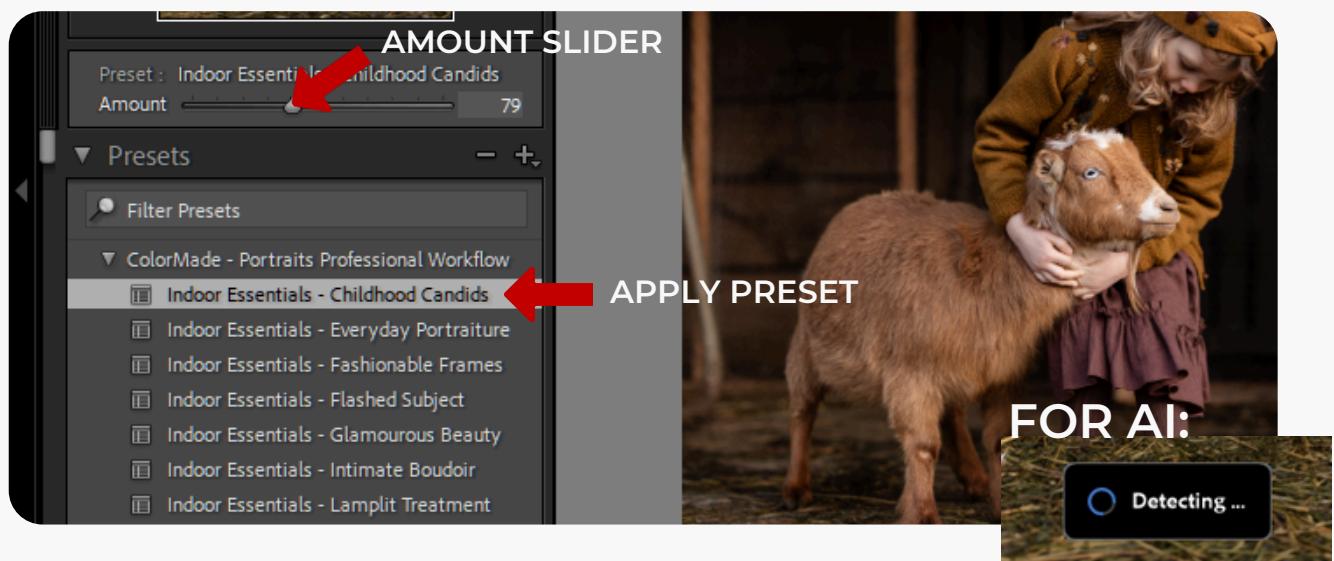

DON'T SEE OPTIONS? EXPAND FOLDER

Select the little arrow icon next to the collection folder title to expand & view newly installed presets.

USE YOUR NEW PRESETS!

Hover to preview, click to apply! AI & Effects presets may take a moment to detect localized zones the first time they are applied to a specific zone. Adjust preset strength with amount slider.

PHOTOSHOP

IMPORT

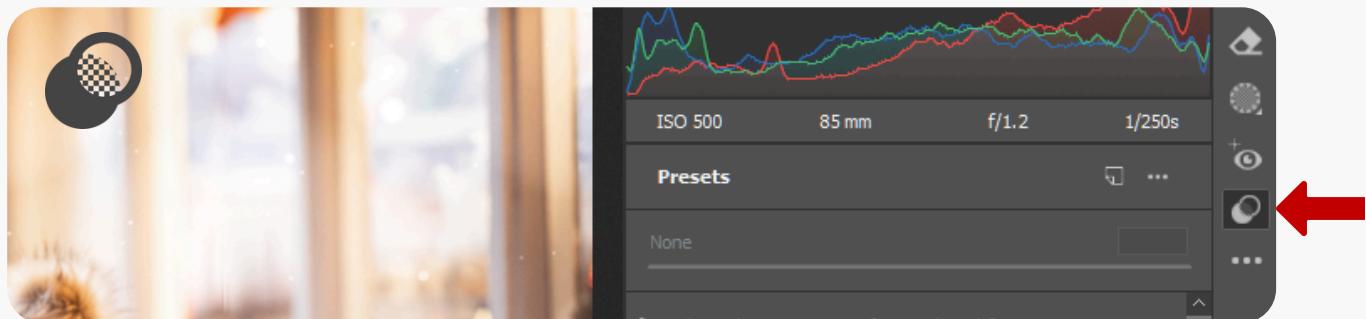

1 LAUNCH PHOTOSHOP

Open any image in Photoshop, and navigate to Filter
Select “Camera Raw Filter...”

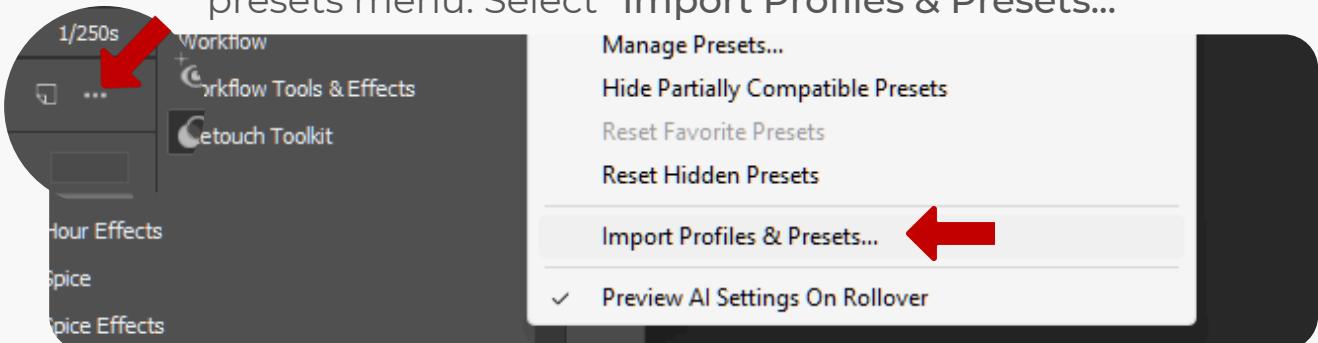

2 OPEN PRESETS

Select the overlapping circles icon from the right-hand toolbar to open Presets.

3 SELECT FILES FOR IMPORT

Click the “...” menu at the top of your Presets panel to open the presets menu. Select “Import Profiles & Presets...”

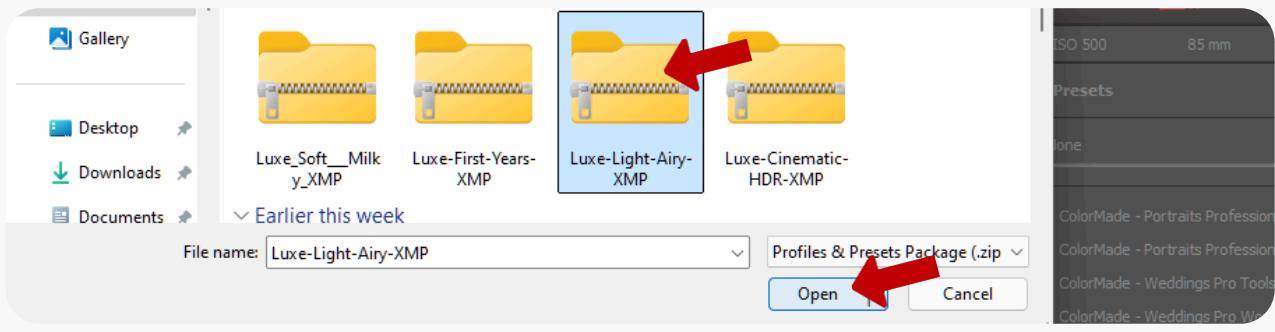

NOTE: ALSO HAVE LIGHTROOM CLASSIC? ANY PRESETS IMPORTED IN LR CLASSIC WILL ALSO SHOW UP IN ACR!

IMPORT

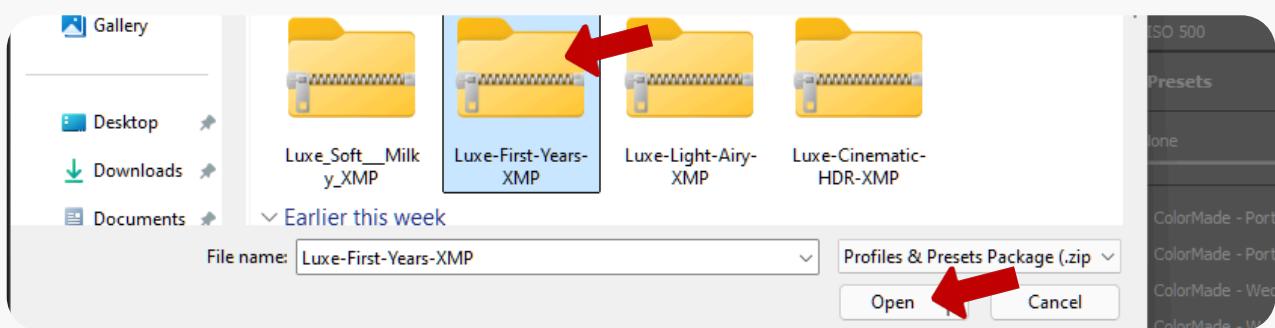

4 SELECT DOWNLOAD FOR IMPORT

Select a downloaded .zip for import. ACR only allows the import of one collection at a time. These must be in .zip format.

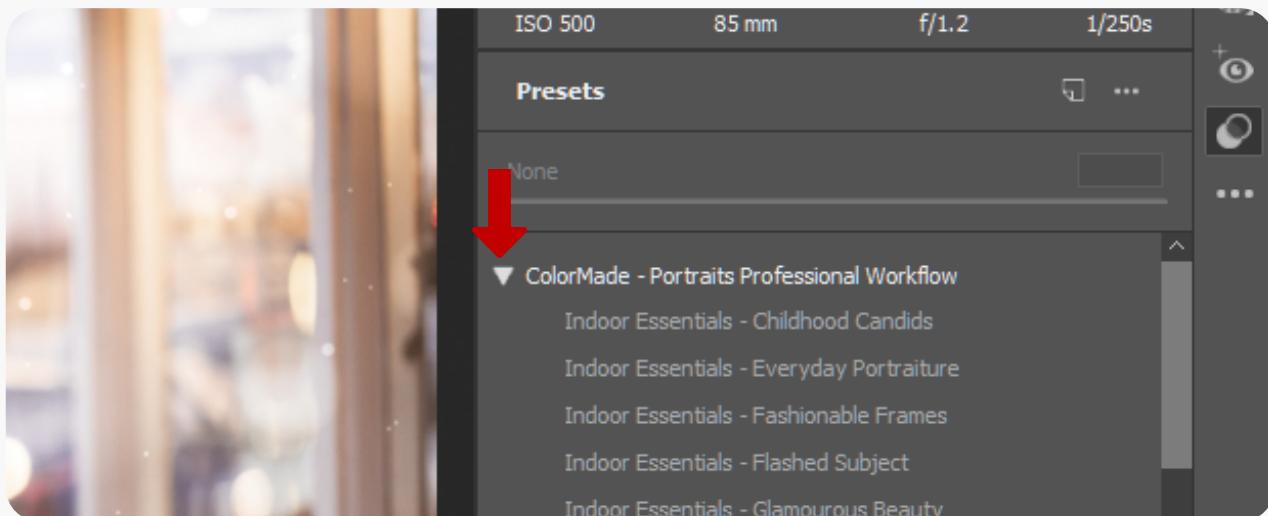

REPEAT PROCESS FOR ALL PRESETS & TOOLKITS

Import each XMP zip you downloaded of presets and tools!

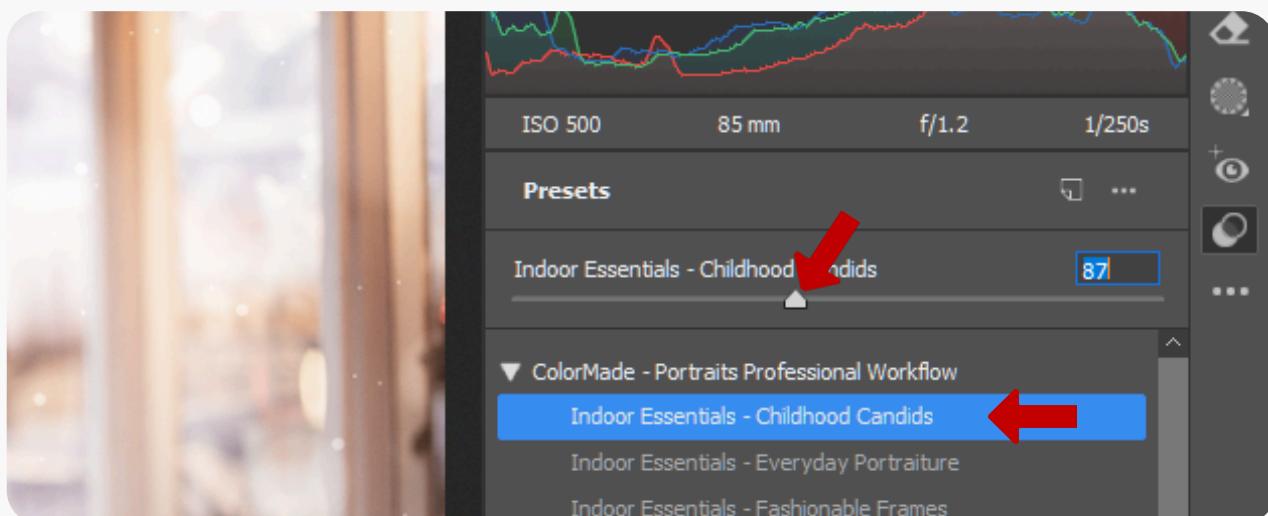

DON'T SEE OPTIONS? EXPAND FOLDER

Select the little arrow icon next to the collection folder title to expand folder & view newly installed presets.

USE YOUR NEW PRESETS!

Hover to preview, click to apply! AI & Effects presets may take a moment to detect localized zones the first time they are applied to a specific zone. Adjust preset strength with amount slider.

TROUBLESHOOT

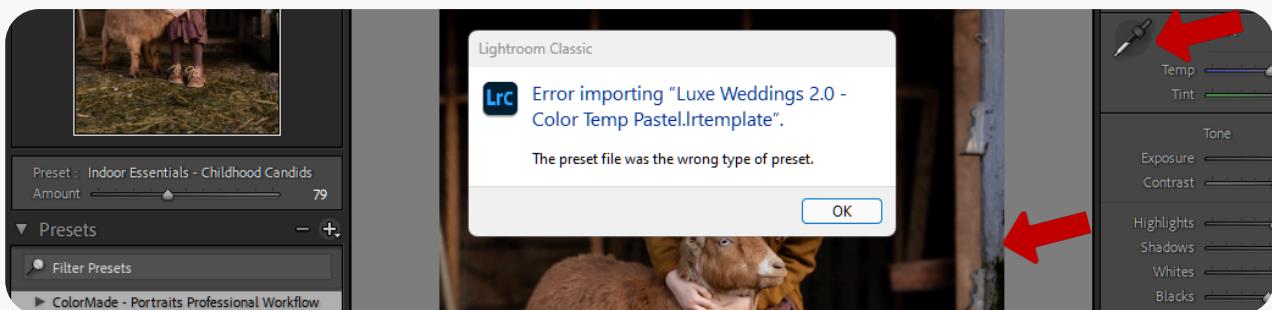

HIT YOUR DOWNLOAD LIMIT?

Unless your browser is blocking downloads due to settings or insufficient permissions, you should be able to find your downloads in your “Downloads” folder. Can’t find them? Reach out to our team at support@theluxelens.com

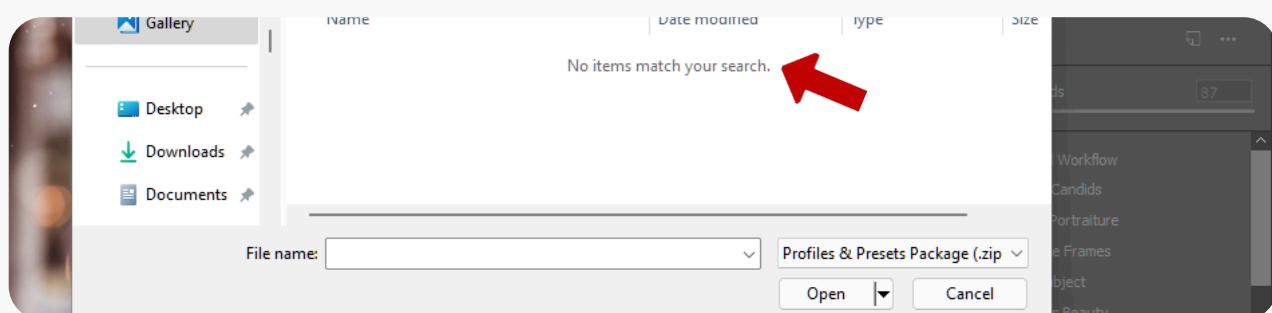

IMPORT ERROR?

If you are getting an import error, you may be selecting the **wrong** files. Make sure you are **NOT** selecting install PDFs, photo overlays, or brushes at import.

CAN'T SEE YOUR FILES AT IMPORT?

If files are not able to be selected at import, are greyed out, or simply aren’t showing up as an option to select, you may have downloaded the wrong files for your software or you unzipped/extracted your files prior to import.

OLDER SOFTWARE?

Using an older perpetual license version of Lightroom, Lightroom Classic, or PS with Adobe Camera Raw?

These guides are for modern subscription software which utilize XMP format presets. Earlier software may require a different file format. **If possible, please reach out to our team with questions prior to downloading your files.** If you purchased an XMP-ONLY collection in error and do not see LRTEMPLATE files available at your download link, we'll offer an exchange for a collection compatible with earlier software where possible!

Not able to update subscription software due to not being able to update your OS?

You may not be able to utilize certain presets.

AI Adaptive & Effects presets will require the latest software updates. They may import, but they will not function in earlier software. However, global (full image) presets should work in earlier subscription-based software.
